

Illinois law requires that each Professional Engineer licensed in the State of Illinois must satisfy the professional development requirements as a condition for license renewal. Pursuant to 68 IAC Section 1380.325 (a)(1) of the Rules for the administration of the Illinois Professional Engineering Practice Act of 1989, licensees are eligible to carryover a maximum of 15 qualifying PDH hours from the current renewal cycle to the subsequent renewal cycle.

Licensees wishing to utilize this provision must document the PDH's to be used in this manner on this form and be retained as part of your records in the event you are audited or need to restore your license. If audited or restoring your license, you must include this form and copies of all documentation/proof for listed activities on this form.

**PART I – LICENSEE INFORMATION**

NAME	ILLINOIS LICENSE NUMBER	RENEWAL PERIOD EARNED IN	RENEWAL PERIOD USED IN
------	-------------------------	--------------------------	------------------------
