

Mentor of the Year Award Criteria & Nomination Form

Because ESI recognizes the significance of experienced engineers fostering understanding and passion for the profession in young engineers and those interested in pursuing a career in engineering, this award recognizes a member for outstanding service mentoring aspiring professional engineers.

Criteria / Method of Selection

Candidates shall be an active member of ESI and the sponsoring chapter, and they shall have served as either a one-on-one mentor for two or more engineers, engaged in a formal mentoring program within his/her company, and /or participated in mentoring programs directly related to the engineering profession. The Honors and Awards Committee may award not more than two nominees each year. Nominations shall be in the format and order prescribed below.

Nominee: _____

Chapter: _____

Email Address: _____

Nomination Submitted by: _____

Nominator Phone: _____

Nominator Email: _____

Biographical Description

Provide educational and professional background, including ESI activities and offices held.

Mentoring Activities that Qualify the Nominee for the Award

1. Please provide at least two individuals that the candidate is currently mentoring or has previously mentored. Include contact information for each, a brief paragraph discussing the scope of the mentoring relationship, and how the relationship was instigated.
2. Please provide information on company mentoring programs in which the candidate participated. Include the candidate's role in the program and dates of involvement.
3. Please provide information on mentoring programs or activities that the candidate has been involved in which are directly related to the engineering profession. This information should include involvement in mentoring activities within professional and /or technical societies at the chapter, state or national level related to engineering.

Citation

Summarize the reason this candidate is most deserving of this award.
